

Company Overview

Global Inkjet Systems (GIS) is a division of Nano Dimension, and we are an awarding-winning global leader in the development and supply of application software, electronics, and ink system components into the industrial inkjet printing market. Our focus is on designing tailored next generation software, advanced printing system components, and providing services for our customers worldwide, such as direct to shape printing, inkjet hardware components and 3D printing.

We foster a friendly culture for people to work collaboratively towards success, communicate openly to challenge the norm and nurture people to create future thought leaders.

Job Summary

As a Technical Documentation Author at Global Inkjet Systems, you will create and maintain comprehensive technical documentation supporting the company's innovative inkjet products and solutions. You will play a pivotal role in ensuring that our customers, partners, and internal teams have access to accurate, well-organized, and up-to-date technical information. Additionally, you will be responsible for guiding the company's documentation creation and maintenance efforts.

Responsibilities:

- **Documentation Creation:** Create technical documentation, including user manuals, installation guides, maintenance procedures, troubleshooting guides, and other relevant documentation, for a range of inkjet products and solutions.
- **Content Management:** Organize and maintain a central repository of technical documentation using appropriate tools and platforms. Ensure that documentation is easily accessible and up-to-date.
- **Collaboration:** Collaborate closely with cross-functional teams, including engineers, product managers, and customer support, to gather information and insights necessary for accurate documentation.
- **Quality Assurance:** Review and edit documentation for accuracy, clarity, and consistency. Ensure that documentation adheres to company standards and industry best practices.
- **User-Centric Approach:** Understand the needs of diverse audiences, including end-users, technicians, and engineers, and tailor documentation to meet their requirements and skill levels.
- **Team Management:** Provide guidance and direction to a small team of technical documentation associates.

Qualifications and experience:

- Bachelor's degree in a relevant technical field or equivalent practical experience.
- Experience in technical writing, preferably within the technology or engineering sector.
- Attention to detail and a commitment to producing accurate, high-quality documentation.
- Familiarity with inkjet printing technology and industrial manufacturing processes is a plus.
- Previous experience in managing a small team is an advantage.

In addition to a competitive salary, we offer the following:

- Pension contributions
